

Student Research Conference (SRC) 2018

The criteria for the format of your paper

1 - Writing

- Although the spoken language of the SRC is in English, you can submit your paper in both English (British or American style) or Dutch. It is up to you to decide which language to use for your paper. If your paper is selected for a presentation, the language of your presentation does not have to correspond with the language of your paper. If this is the case, please inform us by email or phone.
- It is important to write for the SRC audience: academically educated, but from a wide range of disciplines.
- The paper must include an abstract of maximum 100 words.

2 - Format

- Download the sample format [here](#). This format is a Microsoft Word document.
- **Make sure the declaration for permission to publish your bachelor thesis in our scientific e-journal is included in your paper! It's the only English text in the format.**
- Fill in the information concerning the authors completely and correctly. Make sure the title is correct. The title named on the format will be used for the conference proceedings and programme.
- **The paper should be at least three and at most four pages in length, including references, titles and pictures.**
- The settings in the template (margins, columns, font, size, etc.) should not be altered. Headers, sections, subsections, figures and tables should be similar to the template as well. You are not allowed to include page numbers.
- Pictures or figures should be saved in black and white (and thus be clear as such).

3 - Submission

- Please save your file as a .PDF, 'A-4' file
- Please save your file following this example: lastname-firstname-version1 (thus: jansen-jan-version1).
- If your paper is accepted and you plan on submitting an improved version, please save your paper following this example: lastname-firstname-defversion (thus: jansen-jan-defversion)
- If you re-upload your second version, your first version will be automatically erased by EasyChair.
